Welcome to Trees to Seas! Bridging Forests to Oceans, Craftsmanship to Keepsakes.

A Legacy Rooted in Craftsmanship

Trees to Seas might be our newest venture, but our roots trace back to 45 years of gift making experience. Born from the heritage of talented craftsmen, we inherit a love for products hand-made in the USA. Located in the heartland of the Midwest, Heartwood Creations is more than just a name—it's a legacy that has thrived on commitment to quality and an unparalleled focus on craftsmanship.

Trees to Seas: The New Horizon

Over a decade ago Heartwood entered into the souvenir market under the name Wayne Carver. With a commitment to fast delivery, competitive pricing, and superior customer care, Wayne Carver became a well-known name in the industry. However, one thing was still missing, a line of souvenirs 100% made in the USA. Introducing Trees to Seas—a new division dedicated to bringing our timeless craftsmanship to the vibrant souvenir market. We believe in memories that last, and what's better than a memento made with love, care, and skill.

Why Choose Trees to Seas?

- ◆ **American Craftsmanship:** Every product under Trees to Seas proudly carries the tag “Made in the USA.” We believe in homegrown artistry, celebrating our rich heritage with each crafted piece.
- ◆ **Quality First:** We don't just create souvenirs; we create keepsakes. Our products are designed to stand the test of time, making your memories evergreen.
- ◆ **Customer-Centric:** At the heart of our journey lies you—our esteemed customer. Your satisfaction isn't just a goal; it's our promise. We strive to make every interaction, every product, and every memory crafted special.

Join us in our venture from Trees to Seas, where memories are handcrafted with love.

Trees to Seas, the newest venture of Heartwood Creations, holds a profound respect for the environment that has provided the raw materials for our creations over the past 45 years.

For over four decades, we have been actively involved in tree planting initiatives, understanding the need to replenish what we harness. At Trees to Seas, our resolve to make a positive environmental impact extends beyond forests to encompass the diverse and rich marine ecosystems. We are pledging to donate one percent of our sales to initiatives focused on tree planting and sea life restoration. Our collaborations with One Tree Planted and the Hardwood Forestry Fund are steps towards a future where the natural beauty of both forests and oceans is preserved and revered.

Our mission is not just about creating enduring, quality products; it is also about safeguarding the enchanting beauty we find in every leaf, every grain, and every wave, whether it be in the thriving forests or the mysterious depths under the sea. By choosing Trees to Seas, you are not just acquiring a piece of our craftsmanship; you are contributing to a world where the beauty of nature is not only appreciated but preserved.
